ACRON 941 rue Capitaine Julien 69140 Rillieux-la-Pape France
Tel: 00 33 (0)4 72 01 45 62 - Fax: 00 33 (0)4 72 01 45 01
Email: acron@polyclinique-rillieux.fr

ENDORSED BY IFSO

www.noninva-obesity.com

welcome

We are happy to welcome you in Lyon and to continue to deliver state of the art expertise and a focus on innovative technologies in the bariatric field

Dr Jerome Dargent
(Lyon - France)

Pr Karl Miller
(Salzburg - Austria)

In 2015, the NON INVA MEETING has transform itself into the 1st NEW TECHNOLOGIES AND EXPERT INTERNATIONAL MEETING.

The general theme of this 2017 meeting will deal with weight-loss trajectories after bariatric interventions: Can they be improved? For a given intervention, is there a specific trajectory (or a set of trajectories) that can be well defined, i.e. a "signature"?

Jerome & Karl

noninva
International Symposium
on Non Invasive Bariatric Techniques

preliminary program

Friday 04/21 8:00 am, till 6:00 pm
Saturday 04/22 8:30 am, till 6:00 pm

Training sessions are scheduled

- A comparative study of laparoscopic Roux-en-Y gastric bypass and sleeve gastrectomy: efficacy, complications, quality of life
- A new network, HTC (High Tech Surgery Club), purpose and application for bariatric surgery
- AspireAssist, protocol in Super-obese patients
- Bariatric follow-up with IoT: Implementation of the New Life project in France/ phone app and other follow-up tools
- Baronova, the transpyloric shuttle
- Controversies, Laparoscopic gastric banding: game over?
- Controversies: Omega bypass and denutrition
- Controversies: Sleeve Gastrectomy and reflux
- Daily life activities expenditures Vs Exercise: what can the surgeons learn for the follow-up?
- Endobarrier
- Endoscopic gastrojejunal anastomosis : where are we going?
- Endoscopic Sleeve Gastroplasty Vs Laparoscopic Gastric Plication Vs Sleeve Gastrectomy: a comparative study
- Endoscopic Sleeve Gastroplasty with Overstitch and Pose
- Endoscopic Sleeve Gastroplasty: a new device (Endomina)
- Endoscopic treatment for sleeve gastrectomy leaks/ Pigtail drainage/Consensus strategy
- Endosphere
- Fractyl, the new metabolic endoscopic technique
- Gastric Balloons: The Australian balloon, "Swallow it and forget it"
 - Spatz
 - Elipse
 - LPE
 - Obalon, Updates
 - Orbera
- Gastric pouch reduction after Gastric bypass, where are we standing?
- GI Windows
- Metabolic aspects of the Endo-Barrier
- Neuromodulation for obesity treatment
- Nitinotes
- Panel discussion on plication, surgery Vs Endoscopy: plicating the fundus or not, or partially? Side-effects, the same? Re-do after plication, what risks?
- Post-operative adhesions: can we prevent them with bioabsorbable material?
- Teaching endoscopy to surgeons: a challenge or an easy way to go?
- Why does BMI change save DALY's? What bariatric physicians should know

preliminary faculty

Marc BARTHET (France)
 Julien BRANCHE (France)
 Marek BUZGA (Czech Republic)
 Jean-Marc CATHELINE (France)
 Jean-Marc CHEVALLIER (France)
 Elie CHOULLARD (France)
 Ram CHUTTANI (USA)
 André DABROWSKI (France)
 Karin DOLEZAVOLA (Czech Republic)

Gianfranco DONATELLI (Italy)
 Vincent FRERING (France)
 Martin FRIED (Czech Republic)
 Amador GARCIA RUIZ (Spain)
 Jan GREVE (The Netherlands)
 Vincent HUBERTY (Belgium)
 Konrad KARCZ (Germany)
 Radwan KASSIR (France)
 Tony KIERATH (Australia)
 Gontrand LOPEZ-NAVA (Spain)
 Evzen MACHYTKA (Czech Republic)

Vincent MALHERBE (Belgium)
 Elisabeth MATHUS-VLIEGEN (The Netherlands)
 Paolo MILLO (Italy)
 Patrick NOEL (Abu-Dhabi)
 Silvana PERETTA (Italy)
 Reem SHARAIHA (USA)
 Scott SHIKORA (USA)
 Christine STIER (Germany)
 Shelby SULLIVAN (USA)
 Roman TURRO-ARAU (Spain)

Industry: Traditional booths will be replaced by a more original and interactive formula, combining forums, surveys, common and individual talks between companies and surgeons, and sessions that will be similar to “commented posters”.

The symposium will start on Friday the 21th at 8 am and finish on Saturday the 22th at 6 pm
